

1.0 INTRODUCTION

In this globalization era, parents nowadays are very busy with their works as both husband and wife go to work for their families' survival especially for those who lives in metropolitan city. Most of the parents make solution to find the personal teacher because can reduce the time from take and sending their children to the tuition place and sometimes their do not have enough time to send their children because they are always trapped in jam. After that, parent also find the solution to cut their cost and budget in their life. So, when have the system for personal teacher, its easily for parent and student find the right teacher and automatically can solve their problem.

Personal Teacher System is a one of system that is student or parent can find the right teacher only in this system. This system will provide the categories such as LPRI, UPSR, PMR and also SPM and student can choose any category that their want. This system is very useful for the student and also parent because automatically help and solve the problem in find the right teacher.

2.0 STATEMENT OF PROBLEM

- ❖ Difficult to get the correct information

In Malaysia, many advertisements which are billboard, banner, poster and others in anywhere but they do not put complete information on the advertisement and it is difficult for students to get the correct information about the teacher such as the instructor do not state the price, not complete information and also hard to student make the difference to choose the best teacher for them.

- ❖ As a safety measure

After that, many parents are always busy with their work so sometimes it does not take time to care about kids and also because of this, there are many cases we can hear in television and also in media social about of rape, kidnapping, murder and so on and this problem make parent worried about their children.

- ❖ Time reception

Many parent or student always busy and sometimes they had to be trapped by jam just because they want go to back to their home to take children to be sent to tuition or school center.

4.0 AIMS/OBJECTIVES OF THE PROJECT

- i. To help student to find the right teacher
- ii. To reduce their cost.
- iii. To save their time.
- iv. Safety awakes

5.0 SCOPE / LIMITATIONS OF THE PROJECT

Every system developed, before turns to the complete system there for sure will have their consequences. In order to develop the system, we need to define the scope of the system and get information about the system requirement that are going to develop.

The scope of Personal Teacher System is to help and solve of the problem to people nowadays for find the right teacher. This system was created because nowadays it's hard to get the personal teacher. If have, student or parent just saw through advertisement such as bill board, poster, banner and so on and it's hard to student or parent to get the correct information about the teacher. Sometimes, student or parent interested with that teacher but do not know about information of teacher such as a professional teacher or not.

After that, this system can be use by student and parent and the system also can be use in anytime such as morning, evening and can used in late night. After that, this system also can be use in anywhere either by in the school, café, and also can be used when we in the oversea.

For the payment, student or parent also can make payment easily only in this system.

7.0 ESTIMATED BUDGET AND COST REQUIRE FOR THE PROJECT

To develop the Personal Teacher System, it is requiring no big cost as the system only use several of hardware and software which are currently free and can be downloaded via internet. However, for the real situation, below are the estimated budget and cost for the lists of items used to develop the Personal Teacher System:

No	Items	Description	Price (RM)
1	Laptop	(Genuine) Asus A-Series A550CC-XX309-C Core i3 / 15.6"/ 4GB Grey	RM1999.00
2	Adobe Dreamweaver	Adobe Dreamweaver CS6	RM 500
3	WAMP Server	Wamp Server version 3.10 32Bit	RM500
4	Notepad	Notepad ++	RM300
		TOTAL:	RM 3299.00

8.0 HARDWARE & SOFTWARE DETAILS USE IN THE PROJECT

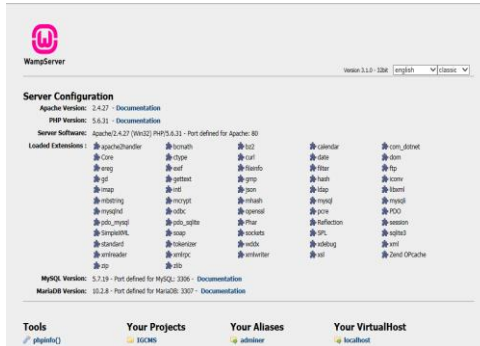

8.1 Hardware used

To develop the Personal Teacher System tools that are going to be used in systems development is such below:

- a. (Genuine) Asus A-Series A550CC-XX309-C Core i3 / 15.6"/ 4GB Red

No	Parts	Specification
1	Processor type	Intel Core i3-3217 3 rd Gen 1.8GHZ
2	Graphic adapter	NVIDIA GeForce GT 720M
3	Memory	4GB DDR3 RAM/ 500GB HDD
4	Display	15.6" 16:9 HD (1366x768) LED
5	Input type	SATA
6	Weight	7.25

8.2 Software used

Wamp server software

WampServer is a Windows web development environment. It allows you to create web applications with Apache, PHP and the MySQL database. It also comes with PHPMyAdmin to easily manage your databases. WampServer installs automatically (installer), and its usage is very intuitive. You will be able to tune your server without even touching the setting files. WampServer is the only packaged solution that will allow you to reproduce your production server. Once WampServer is installed, you have the possibility to add as many Apache, MySQL and PHP releases as you want. WampServer also has a tray icon to manage your server and its settings.

Adobe Dreamweaver CS6 Crack Plus Serial Number Full Download
flambroyamity.info
Adobe Dreamweaver CS6, 64 Bit

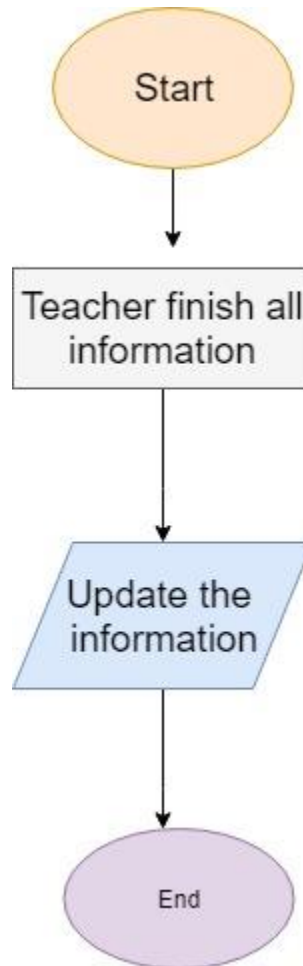

Adobe Dreamweaver is a proprietary web development tool developed by Adobe Systems. Dreamweaver was created by Macromedia in 1997, and was maintained by them until Macromedia was acquired by Adobe Systems in 2005. Adobe Dreamweaver is available for OS X and for Windows. Following Adobe's

	<p>acquisition of the Macromedia product suite, releases of Dreamweaver subsequent to version 8.0 have been more compliant with W3C standards. Recent versions have improved support for Web technologies such as CSS, JavaScript, and various server-side scripting languages and frameworks including ASP (ASP JavaScript, ASP VBScript, ASP.NET C#, ASP.NET VB), ColdFusion, Scriptlet, and PHP.</p>

10.0 STORY BOARD, WEB SYSTEM STRUCTURE AND NAVIGATION

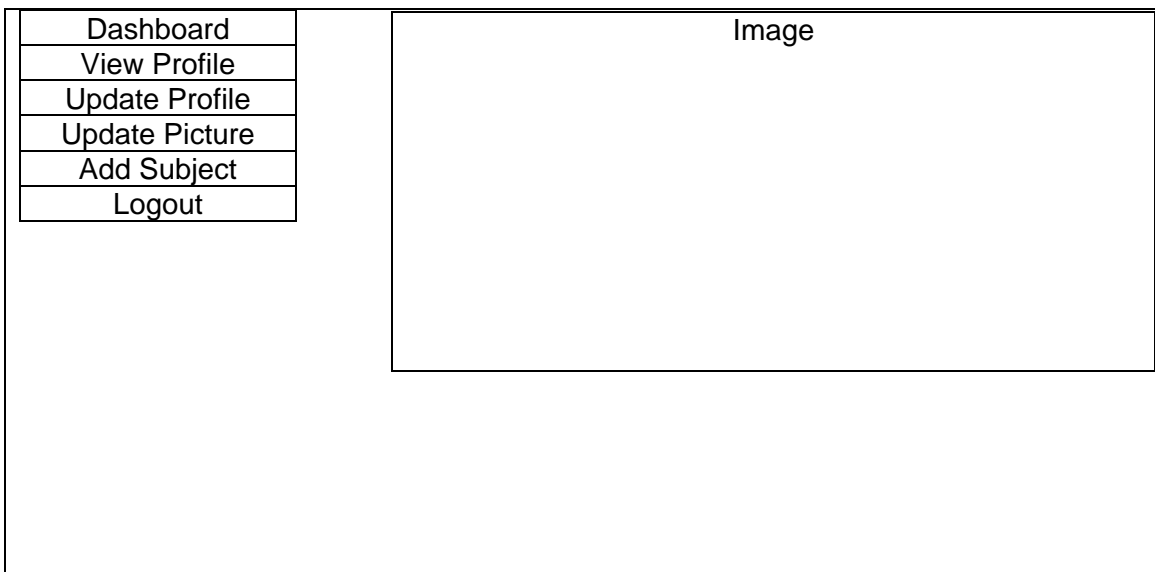

10. 1 Teacher

10. 1.1 Login teacher

A login form for a teacher, enclosed in a large rectangular frame. The form itself is a smaller rectangle containing four elements: a square box labeled "Image" at the top, a horizontal rectangular box labeled "Username" below it, another horizontal rectangular box labeled "Password" below that, and a horizontal rectangular box labeled "Login" at the bottom.

10.1. 2 View profile teachers

A page for viewing teacher profiles, enclosed in a large rectangular frame. On the left side, there is a vertical navigation menu with six items: "Dashboard", "View Profile", "Update Profile", "Update Picture", "Add Subject", and "Logout". On the right side, there is a large rectangular area labeled "Image", intended for displaying the profile picture of the selected teacher.

10. 1. 3 Update profiles teachers
